Repairs to the Infantry Line ore.

I submit Chief Commandant's letter No.191 of the 22nd instant forwarding a report and estimate for repairing the Barr Infantry Lines at Mysore.

The Chief Commandant has taken nearly six months to submit th above report .The new Buaget has already been sanctioned and issued by the Finanacial Department and no provision can therefore be made for the work.

If permitted I propose to forward the estimate to the General Secretariat for necessary action.

There is no provision in this years budget & the matter will have to stand over. It would have been satisfactory if the Military Assistant had favored Govt with his opinion as to the necessity & urgency of the repairs.
There is no use sending to file to the General Secretary

27/7/08

28/7/08

and as the estimate has been framed by the Public Works Department I think it is fair to assume that thes repairs are really required.

But as regards the urgency I cannot say very much. Attention to these repairs will doubtless tend to a more sanitary State and improve the health of the men.

The papers may be filed till next years Budget is under completion

Sir

The Commanding Officer of the Ist Battalion at Mysore reports in his No.209 of 2nd October 1907, that the Infantry Lines at Mysore are in a very dilapidated condition and require thorough repairs. He has submitted an estimate amount-ing to ₹ 6000/- for the same.

The Repair Fund to which the cost of such repairs is usually debited, is not in a position to meet such a large amount at present.

The P. W. grant of ₹ 2000/- placed at my disposal for repairs during the current official year has been arranged for to be utilized for repairing the sheds at Tumkur.

I have the honor to request therefore that you will be good enough to obtain the sanction of Government for the inclu sion of ₹ 6500/- in the Budget Estimate of this Department fo the next official year, to enable me to arrange with the Chie Engineer, for the work to be carried out.

I have the honor to be,
